Organizing a Community Litter Clean Up

The items listed below are in general order of sequence. Start with the first one and check the boxes as you finish each task; when all the boxes are checked you should be ready to go!

- Identify the project leader or leaders. **MAKE SURE THIS PERSON KNOWS THEY ARE RESPONSIBLE FOR THE PROJECT!**
- Choose a good date and time for your clean up. This should be a date *at least* a month away, with two to three months even better. Saturdays are the day you'll get the best turnout.
- Identify a "headquarters" for the clean-up day--firehouse, grange, town hall, etc. This place should have a large parking lot and shelter for volunteers and workers.
- Reserve the use of that place for that day. A letter requesting the use of that site is best.
- Contact your local transfer station or waste hauler to make arrangements for collected litter to be disposed of. Most will provide free disposal for such projects.**
- Determine how you'll get the bags of litter from your roadsides to the disposal site.**
- Make a list of the areas you want cleaned and prioritize the list.
- Identify clubs, service organizations, families, and businesses most likely to help.
- Contact these groups and ask them to help on your date.
- Estimate how many individuals will be cleaning and multiply that number by 2 to determine how many **BLUE BAGS** to order. **Town must be registered IN ADVANCE to receive free bags.**
- CALL or EMAIL Stacey at NH the Beautiful @ 603-736-4401 x20 or info@nrra.net with the time, date and amount of bags you will pick up. Be sure to bring your signed order form with you when you pick up your bags.**
- If possible, map the town or target area and color in the sections as you assign them.
- Assign someone to deal with refreshments. Coffee and doughnuts? Hot dogs? Sandwiches? Soda? Will you need a grill? Cups, plates, utensils, trash cans? Don't forget clean up!
- Ask local businesses if they will make donations of food and drinks for your clean up day.
- Ask local newspapers and radio stations to publicize the day starting a month in advance.
- Make it easy for interested people to contact you – give phone numbers, email addresses, etc.
